

## From our Recipients

“Several times a year I reflect on just how impactful that scholarship has been for me and how I just haven’t been able to find the words for my gratitude...it really was my undergraduate education at Haverford College that shaped my values and my love of learning. I’m infinitely grateful that I had the opportunity to attend Haverford because of the Academic Excellence Scholarship.”

## From our Recipients

“Thank you again for this amazing scholarship. The last three years the scholarship has allowed me to attend CWRU, and it will allow me to finish my final year. Thank you for this opportunity. I hope to continue onto law school after I graduate. Even though the last year and a half was a little bit different than I expected, I’m glad to be going back to campus in the fall. Thank you again!”

“I chose Case Western Reserve University because of its opportunities in experiential learning, the new environment that’s still close to home, and because I believe its psychology program would be great for my future. I greatly appreciate this scholarship because I would not be able to attend Case otherwise. It’s an amazing school that has not only helped my learning career, as I have maintained a GPA of 3.83 my first year, but has helped me grow as a person as I meet new people with identities I had never encountered before (being from small Barnesville). This scholarship greatly minimized my loans for my first year and it was a huge stress off of my shoulders. I am lucky enough that I will not be drowning in debt by the end of my undergraduate career even though I got an incredibly thorough and special education. I am so glad that I am attending Case and I am extremely thankful that the scholarship board chose to help give me that opportunity.”
